1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Rolf Fasth on February 25, 2009.

The application has been amended as follows:

IN THE CLAIMS:

In claim 22, line 2, "estimating" has been changed to ----measuring----.

In claim 26, line 1, "24" has been changed to ----18----.

The following is an examiner's statement of reasons for allowance: All the claims are allowable over the prior art of record because prior art fails to teach or fairly suggest a method and arrangement as recited in the claims particularly with the features of taking SNR limitations into account when controlling the transmission power levels, and controlling the transmission power level so that the crosstalk is distributed in such a way that more crosstalk is accepted for lower service class lines, or controlling the transmission power levels equally so that the crosstalk is distributed in an even and fair manner to the subscriber lines.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
